\*(featured as part of a 4.5 hour air show marathon to commemorate Memorial Day)

The television program will feature unique footage of rare, restored WW II aircraft flying in the skies over Virginia Beach. In addition, the show will capture some of the “period” ambience, including historic military encampments and musical performances, created throughout the weekend events. The host of this year’s program is Chuck Doud, air talent, 94.9 The Point.

“After the overwhelmingly positive response to our production from the recent Oceana & Langley Air Shows, I’m very pleased that we are working with the great staff at the Military Aviation Museum to highlight their unique and dynamic air show on television” said Glenn Holterhaus WSKY-TV President/ GM.

The Military Aviation Museum will host this first annual weekend event to be held at the Virginia Beach Airport. The event will be open to the general public and will be held the weekend of May 16-17. Continuous groups performing music from this era, hundreds of GI re-enactors, World War Two airplanes fill the sky, and dance to a swing band during the Saturday night hangar dance.
