

Healing in the Heartland

May 28, 2013 FOR IMMEDIATE RELEASE... Thunder 104.5 WGRX (Fredericksburg, VA) will join with country stations all over the U.S. tomorrow night (5/29) with live coverage of Blake Shelton's "Healing in the Heartland" concert to benefit the survivors of the recent Oklahoma disaster.

"We could not believe the devastation in Moore, Oklahoma from last week's tornado," said WGRX Program Director Braden Smith. "It is heartbreaking to see the pictures from that area. We can't even begin to understand what those folks are going through, especially the parents that lost children in the elementary school there. We want to do whatever we can to help them out."

Live coverage begins tomorrow evening on Thunder 104.5 with Kix Brooks at 8pm. The NBC-simulcast concert will begin at 9pm. Tomorrow night's concert will benefit the United Way.
